Event Location:	Cambridge Hotel and Conference Centre 700 Hespeler Road Cambridge, Ontario N3H 5L8
Event Date:	Jan 11, 2019 07:00 PM
How Many Participants are Expected?:	3
Event Description:	The RLC is a 3-day event, beginning January 11 at 7pm until January 13 at 1pm. This conference will benefit residence

students through developing the participants' skills in "connecting the dots", meaning their ability to bring ideas, skills, experiences, and interests together to develop the participant's ability to lead our residence students. The three participants are Alicia Clarke, Lisa Lavallo, and Vicky Huang, all of whom are Senior Residence Assistants in South Residence and are presenting at this conference. By being able to exchange ideas and experiences with those from other university institutions, we will be able to learn new ways to further support our residence students' personal growth in their second semester. Furthermore, the conference focuses on developing diverse and inclusive communities, role modeling responsible behaviour, and practicing self care. We will have the ability to discuss different approaches to these topics with our peers, which will hopefully shine a new light on how to develop them. Due to our positions as Senior RAs, we will also be sharing what we learned at the conference with our team members to benefit as many residence students as possible.

Event Description: The International Forum is a three day

conference, held annually and hosted by the World University Service of Canada and Le Centre d'étude et de Coopération Internationale (CECI) which we encourage all of our club members to attend. The annual International Forum brings together WUSC committees from all over Canada to meet (this year in Ottawa) where we will witness a number of very engaging and informative discussions, workshops, and networking opportunities, with this year's theme being Development in Motion. The students attending this conference from U of G will return with a better understanding of the development issues facing the world and how to better tackle these issues. Specifically for me and the other students in residence attending this conference, it is the one opportunity per year we have to visit with our friends from our home countries in one grand reunion.
